

DS2600 Installation Instructions

SAVE THESE INSTRUCTIONS

WARNING – TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- Turn power OFF or unplug luminaire and allow it to cool before replacing lamp.
- Lamp gets HOT quickly. Contact only switch/plug when turning on.
- Do not touch hot lens, guard, or luminaire housing until it has cooled.
- Keep lamp away from combustibles.
- Do not touch lamp. Use a soft cloth. Oil from skin may damage lamp.
- Do not operate the luminaire fitting with a missing or damaged shield.

IMPORTANT SAFETY INSTRUCTIONS

- For outdoor use only.
- Make sure the power is turned OFF before installing or servicing this luminaire.
- WARNING: Risk of electrical shock. Install all luminaires 10 feet (3.05 m) or more from a pool, spa, or fountain.
- Position the wire and wire connector so that is connected within 6 inches (15.2 cm) from a building structure, a luminaire or fitting.
- Not to be buried except for a maximum of 6 inches to connect to the main low voltage cable.

LAMP INSTALLATION/REPLACEMENT INSTRUCTIONS

- 1) Loosen shroud screw and remove outer shroud
- 2) Unscrew shroud from the fixture housing.
- 3) Insert MR16 lamp with correct wattage as marked on fixture label.
- 4) Replace shroud and secure with screw to the fixture housing.
- 5) Adjust outer shroud by loosening thumb screw for wider or concentrated beam of light

DS2600 Series Installation Instructions

FIXTURE MOUNTING INSTRUCTIONS

1. Disconnect transformer from main power supply.
2. Remove shroud from the fixture housing.
3. Insert MR16 (50W max) into the lamp socket.
4. Replace shroud and secure with screws to the fixture housing.
5. Run lead wire from fixture through the ground stake mounting hole.
6. Insert composite ground stake in desired location until flange of stake is flush to grade.
7. Screw fixture into top of stake and tighten until snug.
8. Strip the two fixture lead wires and connect them to the main low voltage supply cable lead with silicone filled wire connectors.
